This record is an exercise, never a real CSR policy, promise, or price list.

Classroom message card

Collect five fields: safe alias, public contact route, need, urgency, and preferred follow-up time. The route is hello@celayasolutions.com; it is the lab's public route, not a visitor's private contact. Use only fictional details.

Classroom routing

A human handles a research collaboration, architecture conversation, or documentation request. Preferred time is a request, never a promise.

Classroom limits

No invented price, guaranteed callback, private contact, client information, high-stakes advice, sending, or booking. The program has no tools for those actions. Every draft requires a person to check it before any separate action.
